Subject: Elections - Sheriff - CT

Thank you for your fax yesterday.

I placed a reference to the Sheriff election on the main page of the WAC website. If you have any statements to place on the web page, please let me know

All that is happening in the world, and in certain States, is relevant to Huerfano County. Particularly important, right now, is what is happening in CT. In that state, they have passed gun laws that have made felons of many good people. Many of them are not giving up their guns, though they have been warned to do so. Right now, it's just a "powder keg" that has not exploded. There are no Sheriffs in CT, and that is part of the problem. There are good law enforcement personnel there, however, who have made it clear that they will not enforce unconstitutional laws.

Sandy Hook was a Hoax

Mr. Halbig [of the above website] worked in public education as a teacher, dean, assistant principal, principal, director of an alternative school and as the Director for School Safety and Security of the Seminole County Public Schools, a school district of approximately 65,000 students. He has 16 questions, has been attempting to investigate Sandy Hook, and has been thwarted too often. People have something to hide.

What you wrote about watching Government reminded me of the following:

**"Government** is not reason; it is not eloquent; it is force. **Like fire**, it is a dangerous servant and a fearful master." George Washington

Of course you and I are pro government. People who are anti government are dangerous. Government is essential, but the founders of our great nation knew it must be tied by the chains of the Constitution. We do have some fidelity in the justice system, and it should be resorted to as much as practicable. So, too, we have the 10<sup>th</sup> Amendment of the US Constitution, which many states and counties are taking full advantage of.

We must be sure you are re=elected Sheriff.
