Subject: **CHILD WHO DIED** September 21.

I do not have an update on this child who died recently. I saw the newspaper article in today's newspaper.

In the US, the powers that be never want to admit to a child killed by vaccinations, so often there is a cover up and the parents are blamed for the death. They usually say the baby was shaken.

If I were you, I would not necessarily trust tests or autopsies.

In the US, the parents in their own defense pointing out recent vaccinations before death, are hidden by the mainstream press.

Reports of autopsies, and tests, are believed by the police to be true.

I do not know these people, and cannot say with certainty what did, or did not, happen. But, if there is any accusation of foul play, I'd visit with the parents to hear their side of the story.
