Subject: **Peace In Huerfano County**

What is that? It is far Less Crime In Huerfano County

Now, I want you to use your imagination. Some group of people are in a city, in the United States. They go into an apartment, and they don't give out any literature, make any speeches, or speak to anyone. Their presence is a secret.

But, because of the presence of that these people, crime is drastically reduced.

Now, that could have been an accident - a coincidence. But, other persons of similar mind is sent to another city, and it happens again. Then, another is sent to another city - same effect. If it happens often enough it's unlikely to just be a coincidence.

***The Maharishi Effect shows that individual consciousness affects collective consciousness. Nearly 50 scientific studies conducted over a 25 year period verify the unique effect of wider benefits to the population produced by the effect.***

You see, this is not just imagination. This actually happened. It's documented.

And, of all people, the **Sheriff** of a county should find this interesting and helpful.

When you look at the following website, which I created 7 years ago, you will get an idea how this works on a worldwide scale:

Pay Attention to Gregg Braden, a scientist

By some businesses in the area I am considered to be a worker within the realm of the internet when it comes to their enterprise. They do better, financially, because of my work.

There is **another internet**, and it has always been in this world. Long before the pyramids. Long before everything we know of. It is the **connection of all mind and matter**. At one time it was called the "ether."

I'll be writing to you more about this. So, stay tuned to this channel, Sheriff.
