Subject: **Peace In Huerfano County - Part 2 (former 2/14/19)**

What is that - peace? It is far Less Crime In Huerfano County

This has nothing to do with a particular religion. The effects of this phenomenon of mind are experienced because of people with many beliefs.

Peace within equals peace in the world around us.

It is peace focused to just a city. Peace in just a county. Peace in a state, peace in the United States, and Peace in the world.

If you have not already, please look at the 1 hour video of Gregg Braden at my site:

<http://worldpeacealliance.com>

This explains, through scientific experimentation, how minds connect with minds, and all matter, all over this world through a medium once commonly called the "ether."

You, I, and everyone experiences this connection consciously more often as we pay more attention to it. Then, after much practice it becomes so common we don't think of it.

In fulfilling the role of "peacemaker" these truths about minds and matter should interest you. It does not matter if peace officers keep the peace, and do nothing more. It does not matter if there is no crime. There will always be need for peace officers.

In Switzerland, an armed, and trained, citizenry keeps the peace. No invasions, and little crime, there.

But far more important to keep the peace is peace within.

And, who needs to bring peace in Huerfano County?

The answer is you, your officers, and everyone else in Huerfano County.

How is that done? How do we determine what it takes? Let's start with the square root of 1 percent – that number of people. For 7000 in the county that is 9 people.

Then, in the future we show, by degree, what is a significant change towards peace within.
