Subject: **Peace (less crime) In Huerfano County - Part 4 (former 2/28/19)**

The last thing I left you with, Sheriff, was a chart, the indicators of states of mind, and heart. They are the indicators of heaven, or hell. When I wrote of responsibility, I was referring to you being responsible, not in a legal sense, but rather a sense of what we are all responsible for spiritually - the laws of the Universe.

So, to repeat, the people in Huerfano County are responsible for the peace, or lack of it, in the County. We are responsible because we radiate, or put off like radio transmitters, the actual state of peace, or not. This is also true of the entire world. This is explained in scientific terms at www.worldpeacealliance.com

There is a book written in the early 1900's. It's free on the **INTERNET** at a website of mine. The title is **THE GAME OF LIFE AND HOW TO PLAY IT**. You can find it on **GOOGLE** at www.psicounsel.com Imagine that, a book sold in bookstores all over the world for a **CENTURY**. Now free on the internet, as well as for sale. Laws of the Universe, and exact applications, are illustrated in this book.

So, what are these recent faxes about, and what does this message from me lead to?

As I mentioned, there is a correlation between how the internet works that includes Facebook, Twitter, Infowars, CNN, ABC, CBS, products, services money and the other "internet" of what I refer to as the connecting tissue of all mind, events, and things of our world. I have worked with both of these internets. People who have used my service in the first internet say I know what I'm doing – weaving a web of gold. Like all of us in this realm, living in these bodies, I am learning the later "internet," a world of the spirit. I am also teaching it. Teaching helps a person learn for themselves.

And, I can say, with conviction, your thoughts, your feelings, your fears, your joy, affect everything around you. And, when more people radiate (even when they don't say a word) a certain way, the events and people of our world are affected even more, for peace, or the lack of it.

The question usually comes up about self control. People become angry and hostile because of what happens in our world, or the personal encounters they have. They react. They feel helpless. How does one remain in a certain state of mind, whatever happens?

What all this leads to is a personal talk between you and me, and then a limited number of your deputies if you approve.

Then, later, more of your deputies, and people (you and I select) of the community. We see what we shall see, and have evidence for, and then go on from there.

What do you think?
