Subject: **HOME GROWN TERRORISTS IN THE USA**

I informed you, sometime back, that the President would be using emergency powers. He did. I also wrote about how **TERRORISTS** would react after news of arrests. If this occurs, it will probably require further executive action from the President to counter widespread violence.

A former high ranking CIA person recently stated that there will soon be indictments of people like Hillary Clinton.. He said, "There are going to be beatings and probably shootings, and shooting at police..." **ANTIFA** (a left wing terrorist group) is seeking quantities of weapons. Both news items are in the FB link from the WAC website. People were willing to burn buildings, cars, and houses of supporters, and they beat up people with MAGA hats, because Trump was elected, so what will they do if Hillary Clinton is seen on national TV in handcuffs? Trump did say, at a debate, "[If I am President] you will be in jail."

What is the profile of a **HOME GROWN TERRORIST**? Typically the higher authority persons have graduate degrees from prestigious universities. Of course, not all are terrorists. Dr. Edwin Vierra is a Harvard Graduate, and he was Ron Paul's advisor. Another good guy is the Yale Law graduate who runs **OATHKEEPERS - Stewart Rhodes**. I advise you to join.

There are a very small number of people in so called "right wing" organizations that are dangerous. For the most part they are infiltrated by the FBI, and used to create bad publicity against good patriots.

The large number of **HOME GROWN TERRORISTS** are a product of both a controlled media, and a totally infiltrated school system at all levels. At the WAC site, see the video interview with former KGB, Bezmenov. That explains how, through generations, nations are taken over from within.

During April, it was reported that a **HIGH SCHOOL TEXTBOOK** "*By the People: A History of the United States*" questions Trump's mental stability, and calls him a racist. This is far from normal.

In Universities of the United States, Communism is depicted as glorious. The Communist Dictators were mostly terrorists - mass murderers. Is this good for the youth of America?

President Trump is going to stop control of education by the federal government.
