Subject: Please do not trust the **FBI**

The many reasons you should not trust the **FBI**, at least at this time, are in recent articles on the Facebook Page of We Are Change Huerfano. Just go to the above referenced website, then click at the Facebook link.

The fact that they picked **Q Anon** as a supposed terrorist influence, and left out **Antifa**, is all the reason you would need to not trust them,

The **FBI** could red flag **Q Anon** people, using Red Flag Gun laws. We don't know what the Federal law will look like yet.

President Trump stated the following Monday:

We must make sure that those judged to pose a grave risk to public safety do not have access to firearms and that if they do, those firearms can be taken through rapid due process, That is why I have called for red flag law, also known as extreme risk protection orders.

In Colorado you have fought against such "law" at the State level. And, you can continue to ignore a Federal so-called "law" that violates the US Constitution. Thanks to Sheriff Richard Mack, we have a supreme court precedent that clearly gives the authority to the Sheriff, and takes it from the Federal Government, when it comes to gun laws. This is our 10th Amendment. This precedent is iron clad. It's on record, and can be referenced and enforced for all Sheriffs in the United States. The Sheriff has that authority, and it does not require County Commissioners or City Government to agree.

These shootings are, for the most part, **set ups**. So, the excuse that these crazy people are causing death, and must be stopped from having guns, is ludicrous. Who ever is setting them up can give them guns if they are the ones actually doing it. When mercenaries are hired, they have their own guns.

The real problems are the set-ups. The Federal Government agencies need to be purged.

President Trump knows these shootings are set-ups.
