Subject: NWO attempts to start Civil War

Ferguson MO

All over the US, the New World Order (NWO) has control of police. Not every department, not every Sheriff, and not every cop thank God. And, of course not you Sheriff.

But, since what the NWO is doing can spread, it's important that you understand what is going on.

Unfortunately, it appears too many of the people of Ferguson do not understand. They think it's the cops to blame, while it's the NWO that has gained control of local police departments that hire bad, and low IQ cops, promote them, and let the good ones leave. That is the problem. Police are murdering innocent, and unarmed, citizens in rapidly increasing numbers.

If more of the people of Ferguson knew what power they have, they would resort entirely to judicial remedies, rather than riot. Every time someone wins a lawsuit against the bad cops, more money is available for the movements that expose, and counter, this corruption.

It is the agenda of the New World Order to start a civil war in the United States.

I don't want a civil war, and any one in their right mind does not want one. Right now, good people are winning against the New World Order, using political and judicial powers that we still have. We are also winning the information war, telling the truth through various means that would be shut down after a martial law takeover.

With a civil war comes martial law (rule by military) and the end of all rights. What comes with that, Sheriff, is the end of your authority. You will be ruled by the military, and if you do not accept that, you will suffer consequences from them. If you accept that rule, you have to look at yourself in the mirror.

So, what I'm asking you to do is to be aware of what is happening, and do not depend upon mainstream media. If you have any doubts that a sinister power blackmails, and threatens congress, and that Obama is a puppet, please investigate the documented, and proven, evidence.
