Subject: 3 books written by Mark Dice

I have ***Big Brother: The Orwellian Nightmare Come True***  
***The Illuminati: Facts and Fiction***  
***The New World Order: Facts and Fiction***

..all in my library. By the time I obtained these books, I'd already researched, and verified, much that was in them. However, I keep these books handy for easier reference.

The material is extremely well researched and documented. There are many source references in the books. I advise that you acquire, and thoroughly study these books. They are extremely valuable.

There are 3 main branches of the NEW WORLD ORDER.

The first is the political class of “elite.”

The second is the intellectual class of “elite.”

The third is the financial class of “elite.”

These three complement each other. Inside the intellectual, there's the religious and scientific. Inside the political class there are the military and police – the parts they can still control.

There has been, and is, an increased tendency for the military and police worldwide to identify as **THE PEOPLE**, not the “elite.”

Most important for you, and all peace officers to know, is that the “elite” do not favor, or love, those they use. In the end they chew them up, and spit them out. History proves this.

So, all police and sheriffs departments need to become activists, and spread the word to other peace officers and military. There is an “elite” that do not like them, and they need to get educated, and take sides, completely, with the people. The “elite” lie to, and brainwash those they use.

Sun Tzu said, “know thy enemy.” Know them. That's why I advise you to read. For you to publicly debate properly, to give useful and thorough media interviews, or to negotiate with your enemy, you must know them and the US Constitution. As one example, when it comes to gun control, you must know the history of it throughout the world, and how many were murdered by their own governments after gun control took place.
