Subject: **Martial Law**

There are recent rumblings of a possible martial law declaration coming up in the near future for the US. If it happens, it's probably a good thing. If it is part of what I describe here, it's okay, and probably temporary.

As you know, the US has been in a turmoil over the election of President Donald J. Trump, and if martial law is declared, it will be because of anticipation of a great deal of physical violence because of the expected arrest of people in high places, those who are going to be charged with treason, and who are the perceived heroes of those who, with extreme hatred, oppose Trump.

I am hoping, if this happens, that Huerfano County will remain peaceful.

The nature of this conflict is best understood when one understands the cause. It came, largely, from the lying media that is controlled. There are still forces attempting to retake control of the United States, and they control much of the media.

The conflict came, also, through the infested schools of every grade – schools that have been under control for decades.

It came through organizations funded by people like George Soros – ANTIFA, BLACK LIVES MATTER, etc. All violence prone. Please be alert about any people in Huerfano County who are part of these, or similar, groups. And, any influx of people in the county from these organizations.

Principle source for much of this here is www.naturalnews.com Look for the following: "EMERGENCY REPORT: Signed Executive Orders reveal Trump is planning mass arrests, military tribunals for deep state traitors like Comey, Clinton and Obama "

Please keep alert to the possibilities of politically inspired violence.

The potential for this taking place is going to be greatly increased after Kavanaugh is in place on the Supreme Court.
