Subject: Ebola part 2

Like every good, and knowledgeable, cop, when you are attempting to solve a serial killing, to identify, apprehend, and convict him, her, or them - what is one of the most important factors you examine?

Method of operation, modis operandi, or “**MO.**”

We know the killers. They are those who have made their intentions clear, as all serial killers do. They brag about their conquests and escapes, and then go on to kill more. They even use Hollywood Movies to tell us what they will do. Yes, they are insane. Unconsciously, they always want to get caught.

Since 1918 with the bird flu, their method with bio weapons has always been to **INNOCULATE FIRST**. That so-called **INNOCULATION** is the beginning of the disease they wish to spread. In **1918**, they started with **US** soldiers. Those were their guinea pigs. Remember, they gained control of the **US** Government through the **FEDERAL RESERVE** in **1913**, and then 1 year later came **WWI** and a war in our region which included Walsenburg after the mining massacre, and the **NEW WORLD ORDER** crime family, The Rockefellers, were involved. **1913 – 1914 - 1918**

Now, here is what else we have learned about their “**MO.**” They use **CRISIS ACTORS** to stage events. These same **CRISIS ACTORS** appear in a number of events, such as the **BATMAN SHOOTING** in Colorado, and then Sandy Hook. Now, **CRISIS ACTORS** appear in their staged Ebola outbreaks.

Probably, the perpetrators are going to use the so-called **INNOCULATIONS** in the **US** to spread Ebola. They will attempt, as they did in **2009**, to forcefully inject poison into the blood streams of the people worldwide. The **US** is their biggest problem with resistance movements, rapidly increasing public exposure, and a heavily armed population, so naturally they will concentrate mainly on the **US**.

Have you seen pictures of the coffins? Former Governor Jesse Ventura shows us the coffins in one of his **CONSPIRACY THEORY** episodes, viewable on the above website (click at “index of this website” and then “concentration camps in America.”). I know this is morbid, but it's time you and as many as you can tell, face up to the facts.

And, the best way to remember what **W H O** is, is to use the correct acronym in place of the one they tell us. Instead of **WORLD HEALTH ORGANIZATION**, consider it **WORLD HELL ORGANIZATION**. And to understand **CDC**, remember it is the **CENTER FOR DISEASE CONTAMINATION**.
