Subject: Ferguson part 2

The conflict in Ferguson is clearly orchestrated by the **NEW WORLD ORDER**. Their primary method of operation has always been **DIVIDE AND CONQUER**. In so many wars between nations, they support both sides. Their goal is to defeat humanity, not to favor a country. In the **US**, their divide strategy is primarily black against white, and the people of all races against the police. Police are just pawns, to them. If the **NWO** were to succeed completely, police would be “thrown under the bus” when they are done with them.

Their strategy is to cause the strife they created in Ferguson to spread all over the US. And, it's important that you see how they do this, so that if they are successful in parts of the US, there is no effect in Huerfano County. This is accomplished, primarily, by educating your deputies, and the people of the county. The two newspapers in Huerfano County have only one shining light, and that is Debi Sporleder, if she is permitted to do her job.

The conflict in Ferguson is primarily caused by people from outside the area, and this is a pattern you can guard against here.

The **NEW WORLD ORDER**, through their controlled **US** Government, have infiltrated both the white, and black activists organizations. In some instances, they create the organizations.

In some instances in Ferguson, the police were correctly exercising their right to self defense. A person does not have to be armed to present a threat to one's life. The problem with police excessive use of force in the **US** is not, at this time, a racial matter, though it's been presented as such for the purpose of creating conflict.

One example of the clearly out of control, and widespread murders by police in the US is that Cleveland is paying out 3 million dollars for one of their police murders. Thirteen Cleveland police officers fired 137 shots into a car after a high-speed chase. Whatever was wrong with running from police, that wrong is to be righted in a court of law, not by police bullets. Bullets are mainly for self defense. And, 13 police officers could easily subdue the passengers without shooting.

All over the US, especially in large cities, black gangs are attacking, robbing, and raping white people in neighborhoods one would not expect this to happen. This is hidden by much of the mainstream media. The activity was provoked, to a great extent, by the government controlled media.

People are buying guns in Ferguson to protect themselves from racial conflict. National Guard troops will be redeployed throughout the Ferguson area. A state of emergency has been declared.

Please keep your eye on Ferguson through alternative media.
