Subject: Department of "Justice" (DOJ) promotes cop killing video

I don't know what evidence could be more convincing that the **US FEDERAL GOVERNMENT**, under control by the **NEW WORLD ORDER**, is promoting cop killing.

I don't know what other fact has greater potential of waking up some of the police that they are pawns in a game, and they need to get out from under the mind control.

And, I don't know what other fact has greater potential of waking up too many of the black community they they, too, are pawns. And, for those of all races in the US who feel the oppression of cops who are out of control, the publicly shown threats against police only serve the **divide and conquer** purposes of the **NEW WORLD ORDER**, so the oppressed are also pawns.

Sheriff, do you know what the good cops do? They inform other cops, and ordinary citizens of the truth. They sue the federal government. Sheriff Richard Mack and Sheriff Arpaio are good examples. Sheriff Arpaio organized a careful investigation into the fraudulent presentation by the Obama administration of an alleged "birth certificate." We need more "good cops like that.

Justice Department Grants Linked to Cop-killing Rap Video written by Alex Newman New American Magazine www.thenewamerican.com

Here are excerpts from the article:

...DOJ was funding a "community" organization linked to a controversial rap music video glorifying the murder of New York City police officers...

...as of December 26, neither the DOJ nor Bronx Defenders had issued a formal statement on their websites about the rap song or the possible role of taxpayer funding in producing it...

Patrolmen's Benevolent Association President Patrick Lynch, went even further, suggesting that the deliberate promotion of cop killing ought to be considered a crime. "This video goes well beyond the parameters for protected speech and constitutes a serious threat to the lives of police officers"...

"It's reprehensible that the city and its taxpayers are essentially supporting a video that encourages the idea of shooting police officers," a police source was quoted as telling the New York Post in a December 12 article, which noted that the "vile online rap video ... urges black people to kill NYPD cops.
