Subject: **Drug Crisis in the County**

A Pueblo Chiefian Article about Huerfano County said this county is number one in overdoses of Opioids in the entire State. Huerfano County is suing the manufacturers. That's like suing gun manufacturers.

The people using the drugs - legally or illegally - should understand that it is the "establishment" that is promoting the drug use, not trying to keep people from them. It is not freedom to use them, it is freedom to be free of them. It is a lack of peace to need them, and the preponderance of peace to be content with life as it is, and to live with emotional pain so one can learn how to change internally, allow peace, and thus end the pain..

Aldous Huxley, one of the architects of the "established" system, in 1962, spoke of "scientific dictatorships of the future," and he said "if you can get people to consent to the state of affairs in which they are living, the state of servitude," [they can get] "people actually to love their servitude. [With drugs] people can be made to enjoy a state of affairs which, by any decent standard, they ought not to enjoy."

And, since 1962 drug use, legal and illegal, has risen sharply in the countries that such an establishment has taken control of.

Illegal drugs have been shipped in, and sold, by elements within the US Government. Poppy fields have been guarded by US Troops.

So, with an understanding of who has done what, let's look at the main instruments that are used to create demand. 1. Media – fiction and non-fiction 2. Education 3. Parenthood. It does not mean it's necessary for any of these institutions to overtly sanction drug use. One can promote suicide with "suicide prevention" programs.

The cure for this in Huerfano County is, as I wrote in my previous 6 faxes, peace in Huerfano County. There is some, but it is not powerful enough yet.

And, the first person to encounter the troubles caused by people who take a lot of drugs are Sheriff Deputies. They are the counselors. They are the first line of contact. They answer the "domestic disturbance" calls. And, they are intercessors.

The world is not, really, separated by job categories. Everyone does every job. Whatever instinct tells us to do.
