Subject: Gun Control – A World Wide Perspective

Gun control is a world wide problem. It is the stated design of the **NEW WORLD ORDER** to disarm all civilians. They are control freaks. They want complete control over everyone in the world. Few nations have many armed civilians, now. Below is a statue at the United Nations Building.

A new documentary about Sandy Hook has recently been released. It is linked from the main page of the **WAC** website shown above. It shows that Sandy Hook was a fraud. Click at the words, “this video.” I believe that any good cop, like yourself who appreciates careful investigation will find the video intriguing. Note that gun confiscations in other countries were prompted by school shootings. Were they frauds, too? I don't know.

In March 1996, a 43-year-old man named Thomas Hamilton walked into a primary school in this central Scotland town of 8,000 people and shot to death 16 kindergarten-age children and their teachers with four legally held handguns.

Was the above MK Ultra mind control? I don't know. See the “mind control” section of **WAC** website.

Democide, is the murder of people by their own Governments. In the 20th Century, 260 million people were murdered that way, and it happened, quite often, right after gun confiscations.

There is a UN Arms Trade Treaty that will be enter into force December 24, 2014. It is not known how enforceable this will be in the US, and President Obama is reported to be considering an executive action to implement it. Of course this would be illegal, but other crimes have been committed by the US federal government, and they have gotten by with them.

History shows that the tyrants do not trust the cops who helped them. And, the clearly documented plans of the **NEW WORLD ORDER** show they will favor, and trust, **FOREIGN TROOPS** over existing police forces.
